

Former des dizaines

1. Complète pour arriver à la dizaine supérieure :

$$16 \text{ €} + \boxed{} \text{ €} = 20 \text{ €}$$

$$26 \text{ €} + \boxed{} \text{ €} = 30 \text{ €}$$

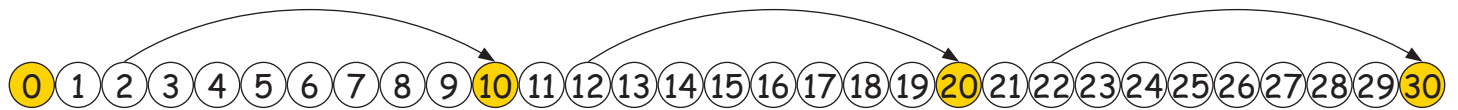

$$11 \text{ €} + \boxed{} \text{ €} = 20 \text{ €}$$

$$21 \text{ €} + \boxed{} \text{ €} = 30 \text{ €}$$

2. Complète :

Si tu es encore incertain, alors utilises l'échelle des chiffres.

$$\textcircled{2} + \textcircled{} = \textcircled{10} \quad \textcircled{12} + \textcircled{} = \textcircled{20} \quad \textcircled{22} + \textcircled{} = \textcircled{30}$$

$$5 + \boxed{} = 10 \quad 15 + \boxed{} = 20 \quad 25 + \boxed{} = 30$$

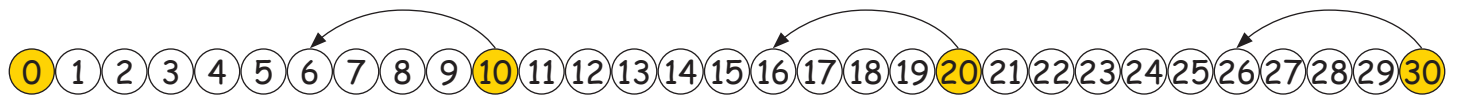

$$7 + \boxed{} = 10 \quad 17 + \boxed{} = 20 \quad 27 + \boxed{} = 30$$

$$1 + \boxed{} = 10 \quad 11 + \boxed{} = 20 \quad 21 + \boxed{} = 30$$

$$6 + \boxed{} = 10 \quad 16 + \boxed{} = 20 \quad 26 + \boxed{} = 30$$

$$0 + \boxed{} = 10 \quad 10 + \boxed{} = 20 \quad 20 + \boxed{} = 30$$

3. Déduire de la dizaine :

$$10 - 4 = \boxed{} \quad 20 - 4 = \boxed{} \quad 30 - 4 = \boxed{}$$

$$10 - 2 = \boxed{} \quad 20 - 2 = \boxed{} \quad 30 - 2 = \boxed{}$$

$$10 - 7 = \boxed{} \quad 20 - 7 = \boxed{} \quad 30 - 7 = \boxed{}$$

$$10 - 5 = \boxed{} \quad 20 - 5 = \boxed{} \quad 30 - 5 = \boxed{}$$

$$10 - 9 = \boxed{} \quad 20 - 9 = \boxed{} \quad 30 - 9 = \boxed{}$$
